

ELLIE SAVES THE DAY

Kit Barcode: 33357004911754

Ages 4+

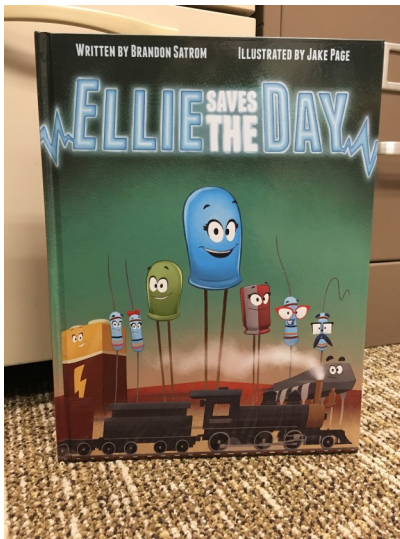

Ellie Saves the Day is the story of a blue LED named Ellie who learns to make her light blink and complete a circuit with the help of her friends.

Through Ellie's adventure, kids will learn about even more electronics components and concepts, and see a real, working circuit brought to life. ***Contains small parts, not for children under 3 years old. Electrical components often contain lead; please wash hands after using!**

HERE'S WHAT'S INCLUDED! Kit replacement cost - \$50 (\$40 kit/\$10 bag)

7 DAY LOAN and \$1.00/day overdue fee

- (1) *Ellie saves the day* book
- (1) circuit board
- (1) 9-volt battery
- (1) battery terminal connector
- (4) resistors
- (1) capacitor
- (2) LEDs: green and blue
- (1) Integrated circuit chip (usually attached)
