

ICE AGE TRAIL EXPLORER BACKPACK

Kit Barcode: 33357004923430

The Ice Age Trail Alliance would like to introduce their Ice Age Trail Explorer Backpack: a hiking pack with everything you need to interact with & learn about Wisconsin's flora and fauna while hiking the Ice Age National Scenic Trail! As you seek out the next yellow blaze, deepen your connection to the nature around you using this explorer backpack. Curious hikers and families with inquisitive children will enjoy using Wisconsin wildlife identification guides, gaining a closer look at critters through binoculars, and navigating the Ice Age Trail with the atlas, guidebook, and compass. The Explorer Backpacks were made possible with support from the **National Park Foundation** and **Granite Gear**, who generously supplied the backpacks.

HERE'S WHAT'S INCLUDED! Kit replacement cost - \$80
