

ORIENTEERING/GEOCACHING

Kit Barcode: 3335700494745

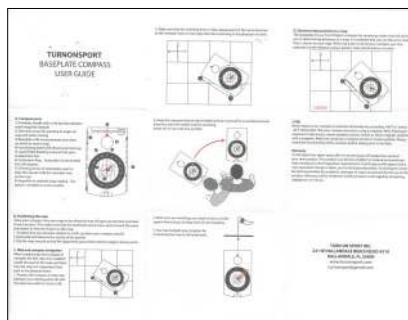

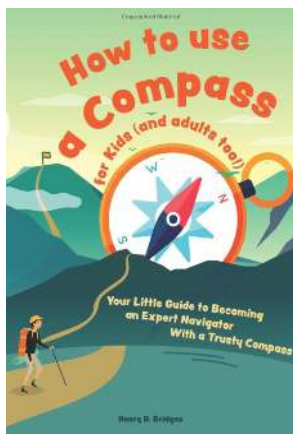

If getting lost in the woods sounds like fun to you, you'll love orienteering or geocaching! **Orienteering** involves using a compass and a map to travel from one point to another. **Geocaching**, on the other hand, involves using a GPS (global positioning system) device to locate "caches," or containers, that hold a logbook and small prizes. Research suggests these sports contribute to enhanced fitness, lower levels of psychological distress, and better brain health.

HERE'S WHAT'S INCLUDED!

Kit replacement cost - \$140

7 DAY LOAN
